

Budapest University of Technology and Economics

Faculty of Economic and Social Sciences

BME was founded in 1782, and ever since it has continued to be Hungary's leading educational institution; its operation and high-standard academic achievement greatly contribute to the economic performance of Hungary through the engineers, scientists, and economic experts that graduate from the university.

The Faculty of Economic and Social Sciences ([GTK](#)) at the Budapest University of Technology and Economics ([BME](#)) is one of the prime institutions of higher education in Hungary specialising in the fields of business, economics, and social sciences. BME GTK traces its roots back to a rich tradition through the work of several ground-breaking scientists and departments which focus on the fields of organisational and business studies, finance, production and operation management, sustainability, and engineering economics.

Our programmes focus on interdisciplinary themes, as well as on economic, technical and social innovation to equip our students with the most relevant and up-to-date knowledge and skills to tackle the rapidly changing business and social environment of the coming decades.

Mária Szalmáné Csete, PhD habil.
Vice-Dean for International Affairs

new academic partnerships
to develop double and joint degrees,
mobility programmes
and scientific cooperations.

INTERNATIONAL PROGRAMMES OF BME GTK

BME GTK offers several Master's programmes as well as a Business and Management Ph.D. programme in English for both international and Hungarian students.

MASTER IN ENGINEERING MANAGEMENT (starting from 2023/24)

The programme prepares students to solve and coordinate complex problems in the technological and business environment, and to manage organisations operating in such an environment.

MASTER IN FINANCE

The goal of the programme is to educate economic professionals to have a global competitive edge in finance, particularly in financial analysis and risk management.

MASTER IN MANAGEMENT AND LEADERSHIP

The programme equips students with knowledge, skills and competences required for a managerial career.

MASTER IN REGIONAL AND ENVIRONMENTAL ECONOMICS

The programme aims to train experts who are competent in analysing regional and sustainability-related problems in the era of climate change.

BUSINESS AND MANAGEMENT PH.D. PROGRAMME

The programme of the Doctoral School of Business and Management provides Ph.D. studies for students specialising in engineering management, management sciences and business economics.

FIND OUT MORE

about our international programmes
in the [Programme Guide](#).

AN INTERNATIONAL FOCUS IS A PRIMARY OBJECTIVE OF OUR FACULTY

MEMBERSHIPS

BME GTK is a member of the European Foundation for Management Development (EFMD) and we also maintain an active scientific relationship with several international universities.

INTERDISCIPLINARY BROADENING PROGRAMME

One of our outstanding international programmes is the [Intensive Seminar Programme \(ISP\)](#) which has been offered since 1996 to our master students. During the one-week-long programme, local and international experts are invited to give thought-provoking lectures about key challenges of leaders in different industries and business functions.

INTERNATIONAL CONFERENCES

Our Faculty has hosted several international conferences successfully in recent years:

- » 25th International European Operations Management Association (EurOMA) Annual Conference, 2018
- » 47th European Society for Engineering Education (SEFI) Annual Conference, 2019
- » 26th International Sustainable Development Research Society (ISDRS), 2020

RESEARCH

The [Quantitative Social and Management Sciences Research Centre \(QSMS\)](#) of BME GTK is committed to addressing challenges in social and management sciences through the use of quantitative methods stimulating interdisciplinary approaches.

SCIENTIFIC JOURNAL

[Periodica Polytechnica Social and Management Sciences](#) is a peer-reviewed semiannual scientific journal published by BME GTK. Both research and application-oriented papers are accepted in the area of management and social sciences. The Journal is indexed and abstracted in SCOPUS, Scimago, and Google Scholar among other listings.
